PROFILE

Perfection-obsessed Software Developer, currently living in Bhubaneswar, India. My interests range from technology to design. I am also interested in music, entrepreneurship, and travel.

Loves open-sourcing cool projects on Github and helping the flutter community regularly on StackOverflow and Youtube.

Currently Flutter, Dart, and React enthusiast.

WORK EXPERIENCE

Mobile App Developer, Milk Mantra

09/2020 – present

- DailyMoo is a mobile-based application that delivers milk, bread, dahi, paneer and other daily need items every morning.
- Designed and built DailyMoo Consumer android  and iOS  apps and Rider App that consumes GraphQL and REST APIs.
- Ensure the performance, quality, and responsiveness
- Clean Architecture with Agile developments.

Anveshan Fellowship, Analog Devices

09/2019 – 10/2020

- Anveshan Fellowship gives an opportunity for the Indian Engineering student community to innovate and design products that can uplift the standard of living of our society.
- The selected projects will be funded and guided by Analog Devices for a full-fledged development.

Mobile App Developer, Pixance

03/2020 – 08/2020

- Started with a team of four and accomplished 3 mobile apps under me.
- Deployed into Playstore and AppStore.
- Writing clean code, maintaining, and feature upgrades.
